Square Zone Bags

For air conveyance system

"Our goal is your success"™

Specialized for air conveyance systems

– Puncture resistant
  - Square zone bag: blocks all 4 corners

Construction:

Outer Fabric balloon
– 1 ply coated synthetic strong knit canvas
– Inner Vinyl membrane

– Available :

– Dimension (Diameter)	For ducts (size)
– 18''	Min 8'' – Max 17''
– 26''	Min 12'' – Max 24''
– 36''	Min 21'' – Max 34''
– 44''	Min 12'' – Max 42''

Attachments
– 1 2 in one valve for quick inflation and release
– 1 3' tubing to facilitate positioning

To install:

1- Inflate the zone in the exact place where you want to block the conveyance system.

2- Do not over inflate. Make sure the zone bag fits tightly into place to withhold the negative pressure.
